

Mathematics: Number Sense

Tuesday, January 28

“Children possess and build mathematical competencies from their first year and keep on learning mathematical ideas throughout their preschool years.”

*(Clements, D.H. & Sarama, J. “Creative Pathways to Math”
Scholastic Early Childhood Today Journal, 2003)*

- Participants will become aware of key concepts to be developed in the Number Sense strand of the Preschool Learning Foundations (PLF).
- Participants will become aware of key strategies in the Preschool Curriculum Framework (PCF) regarding Number Sense development.
- Participants will learn how to incorporate the use of games authentically to integrate the concept of number sense throughout the preschool day.
